

# 1<sup>ST</sup> WORKSHOP

## APRIL 18<sup>TH</sup>

### 2PM - 5PM

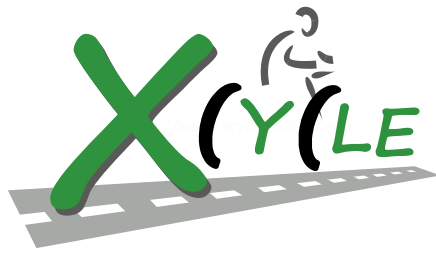

Statistics keep on reporting that HGVs and cyclists do not mix well. Cyclists are often hardly seen by vehicles and they are calling for more safety on the road since years. The **XCycle Project** developed new technologies to respond to their needs and to make cycling even more comfortable.

*Join us at the 1<sup>st</sup> XCycle Workshop during the TRA 2018 Conference in Wien to discover how you can cycle smooth and safe.*

The XCycle project has received funding from the European Union's Horizon 2020 research and innovation programme under grant agreement N° 635975.

# 1<sup>ST</sup> WORKSHOP

APRIL 18<sup>TH</sup> 2PM - 5PM

REED MESSE WIEN - MESSEPLATZ 1 - WIEN
